- 4.3. Provide three referees relevant to this tender submission, including the most recent work completed.
- 4.4. Tenderers/bidders shall bear all costs associated with preparing and submitting a proposal, including cost relating to contract award; SPREP will, in no case, be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.
- 4.5. The tenderer/bidder might be requested to provide additional information relating to their submitted proposal, if the Tender Evaluation Committee requests further information for the purposes of tender evaluation. SPREP may shortlist one or more Tenderers and seek further information from them.
- 4.6. The submitted tender proposal must be for the entirety of the Terms of Reference and not divided into portions which a potential tenderer/bidder can provide services for.
- 4.7. The Proposal must remain valid for 90 days from date of submission.
- 4.8. Tenderers must insist on an acknowledgement of receipt of tender.

5. Tender Clarification

- 5.1. a. Any clarification questions from applicants must be submitted by email to pwprocurement@sprep.org before 21 July 2022. A summary of all questions received complete with an associated response posted on the SPREP website www.sprep.org/tender by 25 July 2022.
- b. The only point of contact for all matters relating to the RFT and the RFT process is the SPREP Procurement Officer.
- c. SPREP will determine what, if any, response should be given to a Tenderer question. SPREP will circulate Tenderer questions and SPREP's response to those questions to all other Tenderers using the SPREP Tenders page (<https://www.sprep.org/tenders>) without disclosing the source of the questions or revealing any confidential information of a Tenderer.
- d. Tenderers should identify in their question what, if any, information in the question the Tenderer considers is confidential.
- e. If a Tenderer believes they have found a discrepancy, error, ambiguity, inconsistency or omission in this RFT or any other information given or made available by SPREP, the Tenderer should promptly notify the Procurement Officer setting out the error in sufficient detail so that SPREP may take the corrective action, if any, it considers appropriate.

6. Evaluation criteria

- 6.1. SPREP will select a preferred consultant on the basis of SPREP's evaluation of the extent to which the documentation demonstrates that the tenderer offers the best value for money, and that the tender satisfies the following criteria:
- 6.2. A proposal will be rejected if it fails to achieve 70% or more in the technical criteria and its accompanying financial proposal shall not be evaluated.

I. Technical Score – 80%

Criteria	Detail	Weighting
Experience & Expertise	Demonstrated experience and recent qualifications in Tariff Classification or demonstrated practical experience of at least 10 years correctly classifying goods or providing Tariff opinions to an expert level.	20%
	Demonstrated experience using ASYCUDA World border management system	20%
	Examples provided of past works relevant to this activity (links to output products)	10%
Methodology	Proposed project methodology noting schedule, activities, concurrent or sequential development, engagement with country representatives, etc.	30%

II. Financial Score – 20%

The following formula shall be used to calculate the financial score for ONLY the proposals which score 70% or more in the technical criteria:

$$\text{Financial Score} = a \times \frac{b}{c}$$

Where:

a = maximum number of points allocated for the Financial Score

b = Lowest bid amount

c = Total bidding amount of the proposal

7. Variation or Termination of the Request for Tender

- 7.1 a. SPREP may amend, suspend or terminate the RFT process at any time.
- b. In the event that SPREP amends the RFT or the conditions of tender, it will inform potential Tenderers using the SPREP Tenders page (<https://www.sprep.org/tenders>).
- c. Tenderers are responsible to regularly check the SPREP website Tenders page for any updates and downloading the relevant RFT documentation and addendum for the RFT if it is interested in providing a Tender Response.
- d. If SPREP determines that none of the Tenders submitted represents value for money, that it is otherwise in the public interest or SPREP's interest to do so, SPREP may terminate this RFT process at any time. In such cases SPREP will cancel the tender, issue a cancellation notice and inform unsuccessful bidders accordingly.

Technical Assistance for Tariff Classification to allow Sustainable Financing for Waste Management (Deposit and Fee) Scheme Implementa- tion ASYCUDA World - Cook Islands -

1. BACKGROUND

The Secretariat of the Pacific Regional Environment Programme (SPREP) is working with the European Union's Delegation to the Pacific, and 14 Pacific Island Countries and Timor-Leste to undertake the PacWastePlus Programme (the Project) which seeks to improve and enhance waste management activities and the capacity of governments, industry, and communities to manage waste to reduce the impact on human health and the environment.

PacWastePlus seeks to generate improved economic, social, health and environmental benefits for Pacific Island Countries arising from stronger regional economic integration and the sustainable management of natural resources and the environment. The programme activities will be designed to assist Countries to ensure the safe and sustainable management of waste with due regard for the conservation of biodiversity, reduction of marine litter, health and well-being of Pacific Island communities, and climate change mitigation and adaptation requirements.

Activities for PacWaste Plus will focus on targeted priority waste streams which are: hazardous wastes (specifically **asbestos, e-waste and healthcare waste**); solid wastes (specifically **recyclables, organic waste, disaster waste, and bulky waste**); and related aspects of **wastewater** (water impacted by solid waste).

2. INTRODUCTION TO PROJECT

Pacific Island countries are faced with the increasing issue of low-value recyclable materials filling dumpsites and building up in stockpiles. Consumer items are imported into the islands but there are currently limited financially viable options for their end-of-life (EOL) collection, processing, and export.

Countries in the Pacific are increasingly viewing Sustainable Financing Deposit and Fee Systems (also known as Advance Recovery Fee and Deposit (ARFD), Container Deposit, Buy-back schemes, Extended Producer/Importer Responsibility, Product Stewardship, Waste Levy, etc.) to provide a self-financing system to enable the long-term collection, processing, and export of recyclable items, including beverage containers, e-waste, and EOL whiteware and vehicles.

The Cook Islands, through Infrastructure Cook Islands, is seeking to introduce a Sustainable Financing waste management initiative, where a Deposit and Fee will be collected upon the importation of certain goods and used for waste management purposes.

The Cook Islands is currently implementing the ASYCUDA World web-based border management system. They are currently using HS 2017 codes and will also use HS 2022 once released later in 2022. This system will be used to identify and capture the ARFD Deposit and Fee upon import to the Cook Islands.

To enable the Cook Islands Customs Service to accurately identify and collect the ARFD Deposit and Fees, PacWastePlus seeks to engage a Technical Expert to undertake an exercise to:

1. Utilising the HS2017 and HS022 Tariff for classification, determine Customs Tariff codes for the 50 products that will be included in the ARFD programme (attached as appendix I)
2. Undertake a Tariff Classification exercise to determine codes to statistical unit level which will allow the Cook Islands Customs Service to programme ASYCUDA World to correctly capture the ARFD Fee when imported goods are cleared through the system.

SPREP

Secretariat of the Pacific Regional
Environment Programme

3. Complete pilot testing to ensure Cook Islands Customs can capture the ARFD Deposit and Fee against the tariff item (code) statistical unit

3. EXPECTED OUTCOME

The PacWastePlus Programme seeks to engage a consultant to undertake outcomes as detailed in the following table.
