

## **Sample onboard communications – passengers transiting New Zealand (not finishing their cruise in New Zealand) who have completed a paper arrival declaration**

*This is a sample only – operators can adjust or communicate requirements to their travellers in a way that is most appropriate for their vessel.*

### **Transit and partial exchange vessels:**

This announcement is for our guests who are **not** finishing your cruise in New Zealand and have completed a **paper arrival declaration**.

If you have completed a paper arrival declaration, this can now be submitted to Customs.

Please visit **[insert container location on the vessel]** between **[insert date/time range]** and place your declaration in the appropriate secure container.

A reminder that if you have completed a digital New Zealand Traveller Declaration you do not need to complete a paper arrival declaration.
